

EXPEDITION DECK BAG

The Expedition Deck Bag is designed for on-deck storage and is generally placed on your front deck within easy reach of the paddler. It attaches using a non-slip velcro base that is quick to install and remove. A combination of nylon webbing and bungy allows you to affix a wide variety of gear to the bag while the zippered opening provides plenty of interior storage. The front mesh pouch is great for smaller, easy to reach essentials like sunglasses and sun screen. The Expedition Deck Bag can also be used in conjunction with the base of the Modular Deck System.

Size

Length: 14"
Width: 13.5"
Depth: 4.5"

Mounting to the Deck

The Expedition Deck Bag is designed for easy installation and removal.

To secure it to your deck, separate the Velcro hook from the Velcro loop on the vinyl base attached to the bottom of the deck bag. Now, slide the vinyl portion under your existing deck lines, position it, then lower the bag portion down joining the two layers of Velcro. In more extreme conditions you can loop the 3/4" webbing around the deck lines or attach it to the base of the North Water Modular Deck System using the webbing and D-rings attachments.
