

SEA/TOUR KAYAK WAIST HELD TOW LINE

This unique system doubles as a tow line and a quick release throw bag. Widely use by instructors and tour operators, it allows you to tow from any length up to 50 feet. It is resistant to salt water and equipped with flotation and a quick-release waist belt.

Primary Use: adjustable tow line.

Secondary Use: 50 foot Quick Release Throw Bag.

This combination gives you a versatile, lightweight rescue tool that is always with you and quick to use.

INSTRUCTIONS:

Pre-set the Towing Length

To pre-set the towing length, place a figure-eight stopper knot on the rope (we recommend between 20 - 50 feet, depending on water conditions). As the rope feeds through the brass ring, it will stop at the knot giving you the subsequent towing length.

To Use the Towline

Pull the blue webbing tab to release the brass clip. Hold onto the brass clip and pull the float from the bag. Hook the brass clip into the grab loop on the boat and begin towing.

To Deploy the Throw Bag

Open the top flap on the bag, remove the float and re-close the flap. Pull the one-inch red webbing tab on the right side of the bag. With the same hand, grab the throw bag and throw.

Releasing the Belt

In the event that you want to disengage from the rescue, release the cam buckle on the waist belt and allow the system to pull away from you.

Re-packing the Bag

Open the bag and simply feed the rope in at random, placing the float inside the bag so that it will stay secure when not in use.

Care Instructions

- Clean the rope of sand and grit after use.
- Do not store the product in damp conditions.
- Inspect the product for damage both before and after use.
- Do not abuse or apply undue stress to the product.
- Periodically coat the snap hooks spring with light oil.
- Do not expose the product to prolonged hours of direct sunlight.
- Place your personal identification on the product in case of loss.

Caution

This product has been designed to enhance your paddling experience, but remember that, as with any other piece of equipment used in a water environment, it has its limitations, restrictions and potential dangers. It has been designed for use in water conditions that require experience and skill. We strongly urge against using this product if you do not possess the skills necessary to recognize the dangers of such conditions. Upon purchasing North Water equipment the purchaser/user assumes all risks of injury or damage to himself, herself, or others as well as loss or damage to any property. In purchasing/using these products (s)he agrees to hold harmless North Water Holdings Ltd., their officers, employees, agents, and representatives from any liability for injury or damage of any kind that may be suffered by the purchaser or others through the use of these products whether caused through negligence or otherwise.
