

# SEA TEC COAMING HELD TOW LINE

**Primary Use: Coaming mounted quick release tow line. Great for long distance towing. 50 feet, shock corded, attaches around the coaming with a unique quick release.**

## INSTRUCTIONS:

### Towing

Loosen the cord lock on the bag and remove the brass clip. Place the towline around the cockpit coaming AFTER you have secured your skirt. Place the float (which is your quick release) in front of you, and the tow line around the cockpit coaming. Push the piece of tubing up against the back of the cockpit coaming to create a snug fit. Clip the brass clip attached to the end of the bag into the grab loop of the boat you are towing.

### Releasing the Tow Line

In the event that you wish to disengage from the rescue, pull the float in front of you and allow the system to pull away from around the coaming.

### Re-packing the Bag

Open the bag and simply feed the rope in at random.
